

Happy New Year!

2013 Calendar Refill

We are pleased to send you the refill for the Sharon Wooden Desktop calendar which was sent to you earlier. This is the 10th in our series of the theme calendars and is on "Worlds Largest Forests". We hope you like them as much as we liked compiling them together.

We will be happy to receive your feedback or suggestions on future calendar themes at **<help@sharonply.com>** or you can write to us at
M/s. Century Plyboards (I) Limited, No.60, Sriman Srinivasan Road,
Alwarpet, Chennai - 600 018.

Presenting

12 Large Forests of the World

Forests are the flags of nature that awaken inspiring universal feelings in all. While in a forest the boundaries of nations are forgotten. The need of the hour is to have as much green cover as possible to combat global warming. This compilation of Worlds Largest Forests throw light on the importance of trees and the need to preserve them as they are the best inheritance we can give the next generation.

In this calendar, the tenth in our themed series, Sharon Plywoods present you with 12 largest forests to celebrate the coming year.
